Palms are still a scarce item and we will have limited quantities to offer for shipping as weather permits. As listed below, we are offering the three varieties, Forsteriana, Arca and Phoenix Canariensis. All are plants which require CARE and the care you give them will determine their service to you. We will NOT make any adjustment on any decorative plants. We know that they are clean, healthy, good stock and that CARE must be your watchword everyday, both while on the job and in the Shop. The Kentias have been graded and priced under a new system. The stock is being offered subject to prior sale. We will set aside orders as they come in shipping as requested. Stock in all sizes is limited. Act NOW. Prices for Pittsburgh and subject to change without notice.
